

Order form

Now that you have received your funding you need to acknowledge your grant.

While your facilities are being built you must have some form of temporary signage in place with our logo on it. On completion we expect to see a plaque that is clearly visible to everyone using the building.

We can provide you with a vinyl banner and a plaque free of charge. The banner can go up straight away although you may not be ready to install a plaque until closer to completion. If you would like to hold off receiving a plaque please note on this form when you would like it or even if you want us to contact you again in a few months.

Please note that you must install this as it is a condition of funding. You also need to acknowledge the contribution made by the Office of the Third Sector and the Big Lottery Fund by following the guidance document we sent.
